

From 1st July 2019, the HSE are introducing changes to the reimbursement of standard Adult Oral Nutritional Supplements (ONS) for patients living in the community.

The HSE has provided three categories of Lists:

- **List A**
- **List B**
- **Exempt list**

<https://www.hse.ie/eng/about/who/cspd/ncps/medicines-management/resources/standard-ons-questions-and-answers-for-hcps.pdf>

As per the HSE circular 015/19, only products on List B require approval via the online reimbursement.

Abbott Nutrition would like to ensure a smooth transition for patients that may be impacted by the ONS reimbursement approval system. Please see the quick guide below.

Abbott Products that require approval (List B)	Abbott Products that <u>do not</u> require approval and could be considered as an alternative choice from List A & the Exempt list
Ensure Plus / Ensure TwoCal	Ensure Plus Advance – Exempt list Ensure Compact – List A Ensure Shake – List A

Please note: This quick guide is not intended to outweigh a patient's Healthcare Professional's clinical decision
