Osmolite Plus

1.2 kcal/ml high energy complete, balanced nutrition

FOR HEALTHCARE PROFESSIONAL USE ONLY

PRESENTATION

- Presented in 500 ml (603 kcal) and 1000 ml (1206 kcal) Ready to Hang (RTH) containers.
- Osmolite Plus is unflavoured.

USES

Food for Special Medical Purposes, for use under medical supervision. Suitable as a sole source of nutrition or as a nutritional supplement for patients who cannot or who are unable to eat sufficient quantities of everyday food and drink to meet their nutritional requirements.

Nutritionally complete for vitamins and minerals in 1250 ml (excluding electrolytes, calculated using the UK Reference Nutrient Intake for men aged 19-50 years). EFSA Dietary Reference Values available on request.

INDICATIONS / COMMUNITY USE

For the dietary management of patients with, or at risk of developing, disease-related malnutrition. For tube feeding.

Available on the GMS (General Medical Services) Scheme. No HSE Online Application Approval required.

STORAGE

- Store unopened at room temperature.
- Avoid prolonged exposure to light.
- Once opened, unused product should be resealed and stored in a refrigerator.
- Unused contents should be discarded after 24 hours.

DIRECTIONS FOR USE

- Ready for use. SHAKE WELL.
- Administer at room temperature for tube feeding.
- The volume/flow rate should be adjusted to meet the patient's nutritional needs and tolerance. This product has a low viscosity and will pass down a fine nasogastric tube.
- A Flexitainer enteral nutrition container may be used if decanting is necessary.
- For gravity feeding, the use of a Flexiflo gravity gavage set is recommended.
- An Abbott enteral feeding pump may be used in conjunction with the Abbott enteral feeding system where a more accurately controlled delivery of feed is indicated. An ambulatory system is available for use.

PRECAUTIONS

- In patients receiving some medications there may be a risk of drug nutrient interactions (e.g. warfarin and vitamin K). Careful prescribing and monitoring practices will serve to reduce the risk (please refer to pharmacist).
- Patients should not make any additions to the feed without consulting their pharmacist or dietitian.
- Not intended for use in children unless recommended by a physician or other qualified healthcare professional.

CONTRA-INDICATIONS

- FOR ENTERAL USE ONLY.
- Do not use in children under 1 year of age.
- Not for use in galactosaemia.
- Suitable for people with diabetes provided that routine glucose checks are performed.

INGREDIENTS

Water, maltodextrin, *milk* protein, vegetable oils (high oleic sunflower, canola, corn, MCT* from palm kernel oil), minerals (potassium citrate, sodium citrate, magnesium chloride, calcium phosphate tribasic, potassium chloride, magnesium phosphate dibasic, ferrous sulphate, zinc sulphate, magnese sulphate, cupric sulphate, sodium molybdate, chromium chloride, sodium selenate, potassium iodide), emulsifier: *soy* lecithin, stabilisers (E460, E466, E418), choline chloride, vitamins (C, E, niacinamide, calcium pantothenate, B₆, B₁, B₂, vitamin A palmitate, beta carotene, D₃, folic acid, K₁, biotin, B₁₂), taurine, L-carnitine.
